BECAUSE YOUR BUTTERFLIES DESERVE IT!

HELLO HABBO LOVERS!

Hello Habbo lovers! Yes, we finally have our own Lifestyle magazine - isn't that great!? But let me introduce myself, or rather ourselves, to you all. My name is Croqui Gabana and I'm a specialist in lifestyle for pixelated environments and together with my sister Sketch Gabana, who specialises in fashion, we work to bring a better lifestyle to all Habbo Hotel guests. We have been working together since birth transforming rooms, personal styles and Habbos' lives, but it was not enough for us. We needed more! So, after some long talks with the management of our beloved Hotel, we finally got what we wanted: the green light to start a Habbo LifeStyle magazine, The Pixel!

We hope to bring more beauty, charm and style to all Hotels and help those who are interested in getting to know more about themselves, the Hotel, and what is trending in pixels right now.

Our first issue is all about jumping into the Bioworld! This opens up a lot of possibilities to show a greener approach to room design and a more relaxed take on your fashion. Here you'll find all that you can look forward to in Habbo this month. Are you ready!? Have fun!

XOXO

GREEN LIFE

This month in Habbo it's all about nature and sustainable lifestyle! This season, life in the woods is in - and we are loving it!

We know, we know, for some of us life in the wild can be a nightmare: bugs everywhere, dangerous animals, being totally exposed to the elements... But we are here to tell you how to have an amazing time with nature and not die trying! Will you join us in the woods for Easter this month?

Glamping! It's a Thing Honey!

The idea of being in the middle of nowhere and sleeping on the floor doesn't appeal to you? We totally get you! Don't worry, we used to feel the same. But did you know that you can be in touch with nature all the while maintaining comfort and style? Say hello to glamping! The sky is the limit to the amount of luxury you can have this Easter. We're sure we're going to see lots of glampsites pop up this month in Habbo, so get ahead of the curve and start designing yours!

Bugs, Bugs, Bugs!

We can't get enough of them this month. Love them or hate them one thing is for sure: all of them are more important than we think. How about you go for a walk and try to find some bugs to study? We can guarantee that the more you learn, the more surprising they become! This month you can collect bugs in your very own rooms with the help of Bug Kits and Terrariums. Which one will you find? Only time will tell...

And if you want to get really close, you can get inside this one-of-a-kind sleeping bag and disguise yourself as a giant caterpillar! Blend in with the little critters for an immersive experience and take unique, close-up pics for your socials. Your followers won't believe that you've taken them!

Bug Royalty!

In Habbo we can be whoever or whatever we want to be and we want to know what type of bug you are. If you were bug royalty, what would you look like? We would love to see your bug inspired fashion, so please share your looks with us on Twitter with [#ThePixelBugRoyalty](#).

MOSTLY A's:

You got **Goth Moth**! Some moths misunderstand you and think you're gloomy and twisted but really you just prefer darker shades and don't feel represented by mainstream culture. We all have a dark side, but you embrace yours and we think this is beautiful! Be yourself and maybe you should try going out with a Party Moth sometime, you can learn a lot from each other.

MOSTLY B's:

You're a **Party Moth**! You'll always be spotted at any big event. Where there is light bouncing off a discoball, you'll be there flapping your wings underneath it. You know how to have a good time and you're always the life of the party. But hey, don't forget to have some chill time here and there or you'll wear yourself out. And always remember, don't go into the light!

MOSTLY C's:

You are more of a **Geek Moth**! You're a fountain of knowledge and a reading machine. When something interests you, there's no stopping the lengths you'll go to to learn more about it. Other moths are envious of your passion and sometimes you're quick to forget this amazing quality about yourself.

MOSTLY D's:

Is it a bird? Is it a plane? No! It's **Athletic Moth**! You can be found flapping circles around everybody, anytime, anywhere. You have an endless supply of energy and we dig it! However, much like Party Moth you'd do well to remember to put some time aside for yourself to relax and let those wings wind down.
